

WORM DRIVE CLAMP HOUSINGS

STAINLESS STEEL W2 / AISI 430, W4 / AISI 304

Lock type: screw type

This component is used for convenient tightening of stainless steel worm drive hose clamps using a screwdriver. The clamp housings are made of high-quality stainless steel.

The screw-type locking mechanism allows for precise adjustment of the worm drive clamp's tightening force.

These housings are used in many branches of industry wherever worm drive clamps are applied, including automotive workshops and the hydraulic industry.

PRODUCT CHARACTERISTICS

HIGH STRENGTH AND DURABILITY

RESISTANT TO HIGH AND LOW TEMPERATURES

RESISTANT TO VIBRATIONS

MADE OF STAINLESS STEEL W2/AISI 430, W4/AISI 304

UV-RESISTANT

DESIGNED FOR WORM DRIVE CLAMP BANDS

EASY TO INSTALL

TECHNICAL DATA

Band Width	Material Class	Steel Grade	Quantity per Pack
9 mm	W2	AISI 430, nickel-plated, zinc-plated	50 szt.
9 mm	W4	AISI 304	50 szt.
12 mm	W2	AISI 430, nickel-plated, zinc-plated	50 szt.
12 mm	W4	AISI 304	50 szt.
